

Project Executable Files

Date	04 july 2026
TeamID	
Project Name	A Comprehensive Measure of Well Being
Maximum Marks	3 Marks

Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	No
4	Database schema / seed files (if applicable)	Yes
5	Environment configuration file (.env.example or similar)	No
6	Deployed application URL (if hosted)	No
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	No
9	Testfilesandtestresults	No

10	Demo video or walkthrough (if required)	No
----	---	----

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

A-Comprehensive-Measure-of-Well-Being/

```

|
├── css/
├── images/
├── js/
├── php/
├── database/
├── index.php
├── login.php
├── register.php
├── dashboard.php
├── README.md
└── other project files
  
```

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	Not Hosted (Runs on Localhost)
Login Credentials (Demo)	Register a new account or use demo credentials if available
Platform / Hosting Provider	Local host (XAMPP)
Repository Link	https://github.com/rajeswari-boggavarapu/A-Comprehensive-Measure-of-Well-Being
Demo Video Link	Not Available

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

1. Install **XAMPP**.
2. Clone or download the project from GitHub.
3. Copy the project folder into the **htdocs** folder.
4. Start **Apache** and **MySQL** from the XAMPP Control Panel.
5. Open **phpMyAdmin** and import the project's SQL database.
6. Open a browser and visit:

<http://localhost/A-Comprehensive-Measure-of-Well-Being/>

7. Register a new user or log in to access the application.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround/ Status
1	Application is not hosted online	Run locally using XAMPP
2	No Docker support	Manual setup required
3	Limited performance testing under heavy load	Future enhancement
