Data Flow Diagram

Create a DataFlow Diagram (DFD)to show how data move through your system-between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval/Rounded shape	External Entity	A person,organization,or system outside the project that sends or receives data (e.g., Customer, Payment Gateway).
Rectangle with Numbered header	Process	An activity that transforms incoming data into out going data(e.g.,ValidateRequest,Process Order).
Rectangle(solidfill, no number)	Data Store	A place where data is held for later use(e.g., Customer Database, Inventory).
Labeled arrow	Data Flow	The movement of data between entities, processes,and datastores,labeled with what data is being passed.

Example

The diagram below illustrate how the symbols above come together to form a complete data flow diagram.
