Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A policymaker, researcher, student, or government official.	Predict a country's Human Development Index (HDI) and its development category using health, education, and income indicators	It is difficult and time-consuming to manually analyze multiple socio-economic indicators	HDI depends on life expectancy, education, and income, making analysis complex.	Confident that I can make faster, accurate, and data-driven decisions for development planning and policy improvement.
